Email:	<input type="text"/>	Phone	<input type="text"/>

How did you come across KappaSense?:

---

---

---

**APPLICATION DETAILS**

Type of application:

---

---

---

Type and Model of Machine:

---

---

---

Is this an existing or new design?

---

**ENCODER DETAILS**

Purpose of Encoder:

---

---

---

If this is an existing design, please describe what the current solution in use is and why there is a need for change:

---

---

---

Purpose of Encoder:

---

---

---

Type of encoder required:

---

---

---

**ROTARY ENCODER TARGET SPECIFICATION**

Type (Absolute/Incremental):	_____
Single turn / Multi turn:	_____
Accuracy:	_____
Resolution:	_____
Repeatability:	_____
Eccentricity tolerance:	_____
Tilt tolerance:	_____
Axial Motion tolerance:	_____
Operating Speed:	_____
Operating Temperature:	_____
Interface:	_____
Diameter:	_____
Shaft:	_____
Height:	_____
Shock/vibration:	_____
Environmental Conditions:	_____ _____ _____ _____ _____

**LINEAR ENCODER TARGET SPECIFICATION**

Type (Absolute/Incremental):	_____
Accuracy:	_____
Resolution:	_____
Repeatability:	_____
Y Axis Misalignment tolerance*:	_____
Z Axis Misalignment tolerance*:	_____
Tilt tolerance:	_____
Operating Speed:	_____
Operating Temperature:	_____
Interface:	_____
Length:	_____
Width:	_____
Height:	_____
Shock/vibration:	_____
Moving Read Head Cabling: (please describe type of cable and if a passive read head is required)	_____ _____ _____
Environmental Conditions:	_____ _____ _____ _____

\* Note: Definition of Y and Z axes:
